

Chairman's Message

Dear Friends,

Education is very important for an individual's success in life. Education provides pupils teaching skills that prepare them physically, mentally and socially for the world of work in later life. Education is generally seen as the foundation of society which brings economic wealth, social prosperity and political stability. Higher education helps in maintaining a healthy society which prepares health care professionals, educated health care consumers and maintaining healthy population. Education is major aspect of development of any modern society since if there is a deficit of educated people then society will stop its progress.

"Chiccolu Chirudivvelu" Trust, an organization which started one year ago by my colleague officers. "Chiccolu Chirudivvelu" aims to impart quality education to the children who reside in the countryside and have no access to education. We have taken the responsibility of educating them as per our capabilities. Our organization has achieved measurable success during the last year in providing education, professional course to the Medical & Engineering sectors to nearly 133 students.

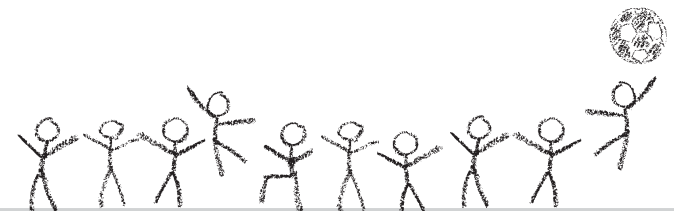

We have an ambitious project of providing quality physical infrastructure, toilets, library, laboratory facilities, sports equipment etc. To carry forward our ambitious project, we request you to join your hand and help us.
